VVS HOSPITAL · HOSPITAL ERP · GUIDE

Administration

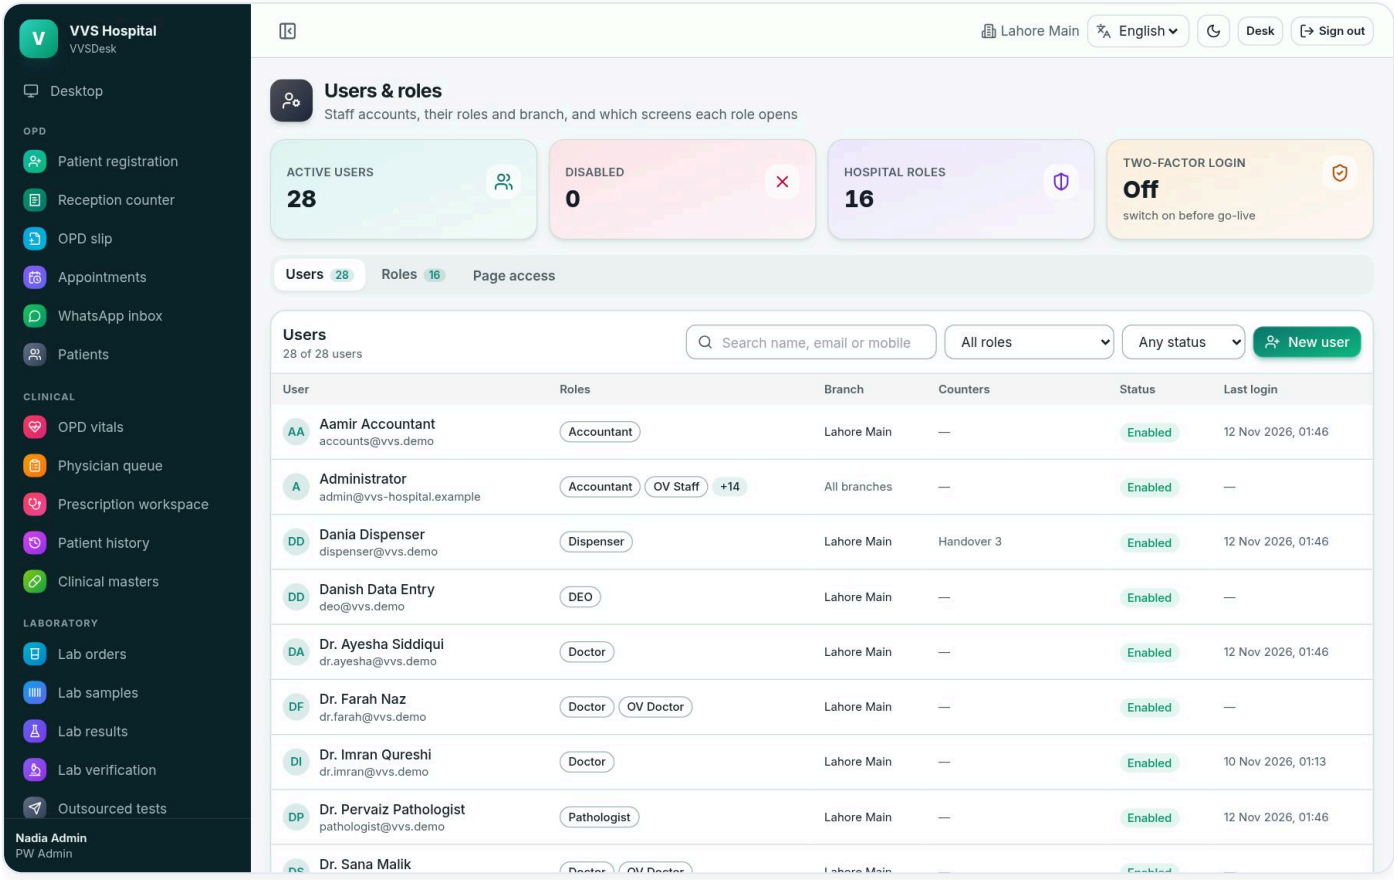

Users, roles and page access, clinic settings, audit, dashboard and devices.

1. Users & roles | 2. Settings | 3. Audit | 4. Dashboard

For: Admin · 12 November 2026 · Open the app at /hms and follow along; each screen shown here is the live app.

1 Users & roles

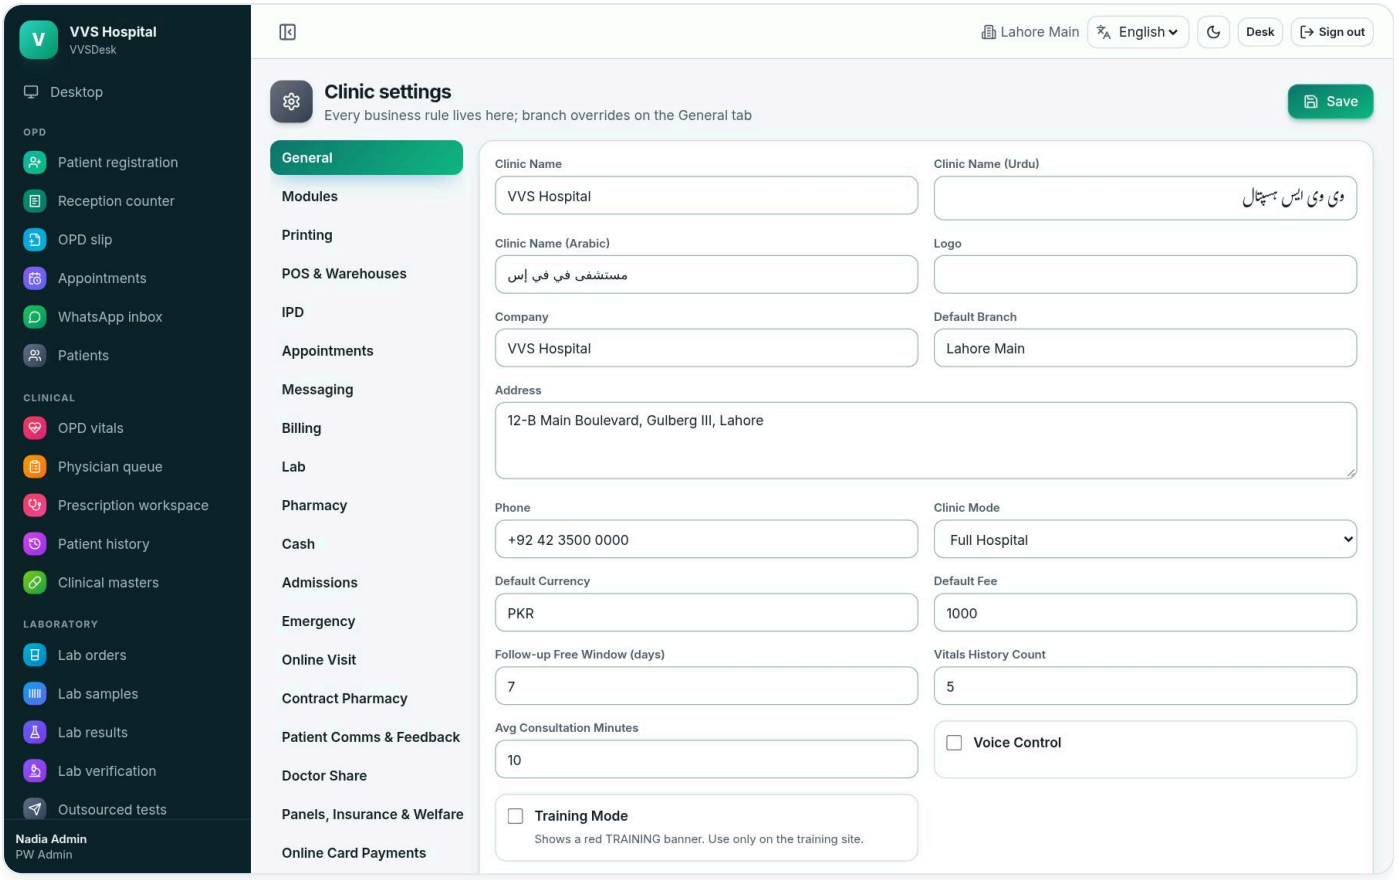

1. Create staff users, give roles, lock to the branch and counters.
2. **Page access**: which roles may open which screen.

Users & roles

2 Clinic settings

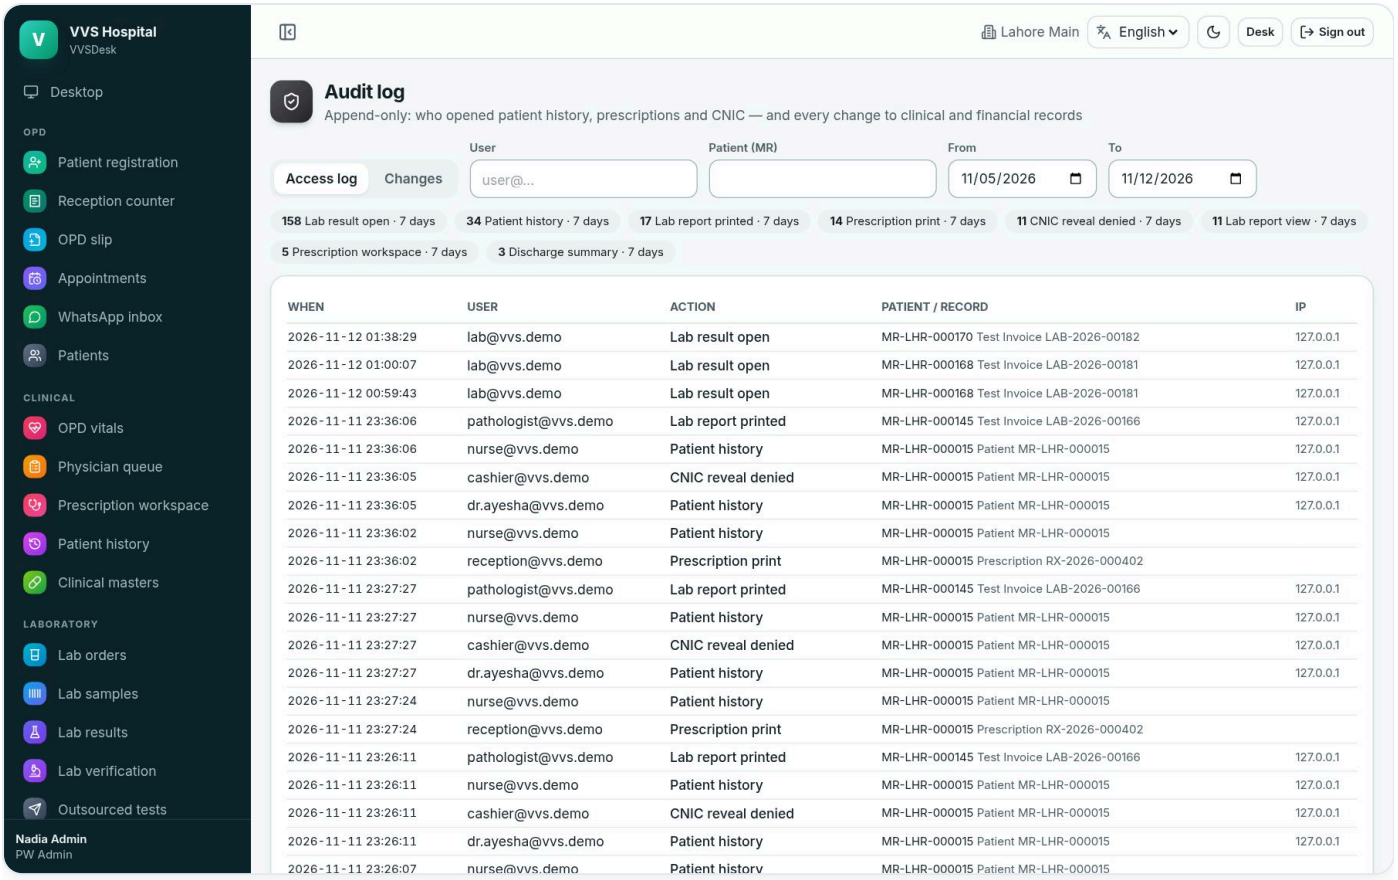

Modules on / off, OPD rules, cash rules (blind count, tolerance, discount limits), printing and messaging.

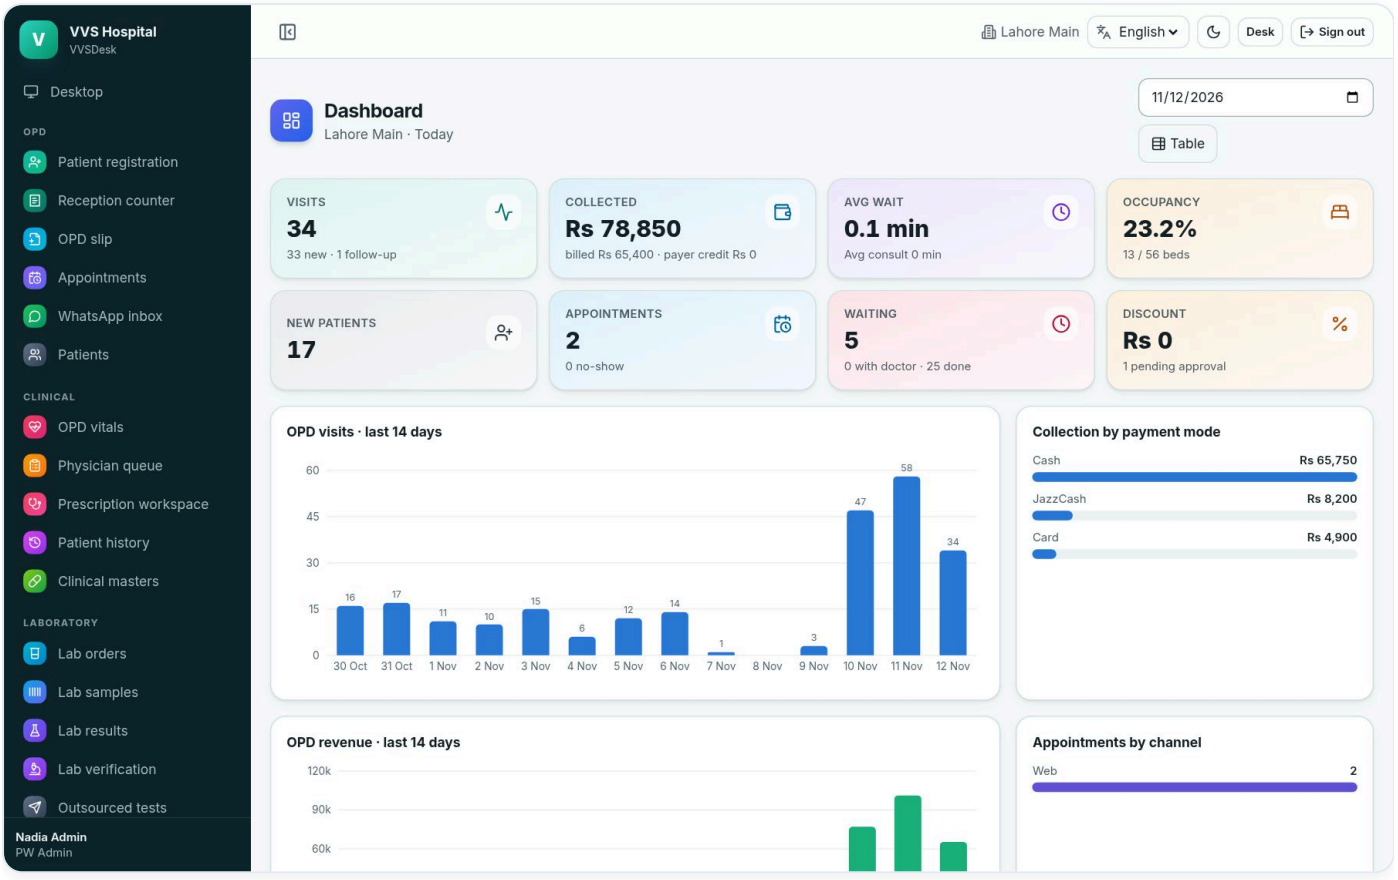

Clinic settings

3 Watching the system

1. **Audit log** — who viewed or changed patient records.
2. **Dashboard** — the day at a glance.
3. Backups every hour; a health check reports scheduler, failed jobs and the last backup (OPS.md).
